Forecast For Southwest England
Issued by Met Office Exeter
at 1600 on Wednesday 10 Mar 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Remaining wet and windy, with significant gales.

This Evening and Tonight:
Rain clears eastwards, leaving a dry period for a short while, before blustery showers follow, frequent, and occasionally heavy. These continue overnight, with winds strengthening throughout, leading to severe coastal gales, and inland gales. Minimum temperature 8 deg C (46 deg F).

Thursday:
Showers continue throughout, with occasional dry spells through the day, though some carry a risk of hail. These persist overnight again, heavy at times. Continued strong winds, with coastal gales. Maximum temperature 10 deg C (50 deg F).

Outlook for Friday to Sunday:
Continued unsettled conditions across this period, featuring blustery, heavy showers on Friday and Saturday, with a possible risk of hail. Cloudy, with some lighter showers and weakening winds on Sunday.
